

Cyanoacrylate Adhesive Black Tak-Set, Type 4105

Tough elastic instant adhesive for strain relief and the assembly of large components. Black Tak cures quickly at room temperature and produces impact-resistant joints that withstand high temperatures.

Resistant to impact loads (drop test), gap loads and stresses due to thermal shock.

Features:

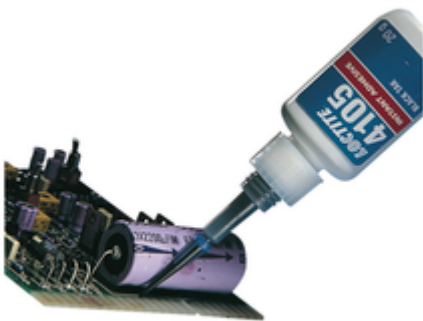

- Assembly of large components on printed circuit boards
- Strain relief of large components, avoids stresses on the connecting wires of components with high profile
- Strain relief on cable connections
- Terminal wire reinforcement

Scope of delivery:

- 1 bottle Adhesive 20 g
- 1 pieces Activator 25 ml in spray bottle
- 2 pieces Dosing needles

Technical data:

- Color black
- Consistency flüssig
- Density at 20 °C 1,1 g/cm³,
- Flash point 80-93 °C
- Start of boiling >149 °C
